Bac Ninh, Vietnam | +84 365079570 | fundokukiri@gmail.com | github.com/fundokukiri | linkedin.com/in/fundokukiri

PROFESSIONAL SUMMARY

Learning new languages and technologies is what I am passionate about. I am considered a team-player because I like to help other and tend to work well within the group. I can also do some mentoring tasks and do code reviews for other team members.

Eager to contribute to a collaborative engineering environment, apply my knowledge, develop new skills, and support company goals. Committed to long-term growth with a strong sense of responsibility, adaptability, and willingness to take on challenges.

TECHNICAL SKILLS

Programming Languages: Python / C / C++ / C# / Rust

Tools: Git

Foreign Languages: English / Mandarin (Basic)

Soft Skills:

- Time management
- Teamwork & cross-functional collaboration
- Adaptability and continuous learning
- Research and problem solving
- Working under pressure

Others:

- Good understanding of OOP methodologies, SOLID principles, design patterns
- Computer proficiency & Linux experience

EDUCATION

B.Eng. in Computer Engineering Technology – Ho Chi Minh City University of Technology and Education

2016 – 2021 | Grade: Good

WORK EXPERIENCE

Test Engineer

12/2025 – 08/2026

FUYU PRECISION TECHNOLOGY CO., LTD. – BAC NINH CITY

Responsibilities :

- Develop, execute, and maintain test plans and test procedures for manufacturing products and equipment.
- Perform functional, performance, and reliability testing to identify and troubleshoot product defects.
- Analyze test results, investigate root causes, and implement corrective actions to improve product quality.
- Collaborate with R&D, Production, Quality, and Process Engineering teams to resolve technical issues and optimize testing processes.
- Prepare test reports, maintain test documentation, and monitor testing data to ensure products meet quality and technical requirements.
- Support New Product Introduction (NPI) activities by developing and validating test processes, fixtures, and equipment to ensure smooth transition from engineering to mass production.

Embroidery Designer

12/2024 – 06/2025

HANA GLOBAL INC / HANA KOVI VIETNAM CO., LTD. – BAC NINH CITY

Responsibilities :

- Worked with the design team to create embroidery patterns and ensure product quality.
- Collaborated with clients to understand their design requirements and deliver customized embroidery solutions.
- Managed production schedules and quality control to meet deadlines and ensure customer satisfaction.

Software Engineer

07/2022 – 11/2024

HHM TRADING SERVICE CO., LTD. – HO CHI MINH CITY

Responsibilities :

- Developed and maintained internal software applications to improve business operations.
- Collaborated with cross-functional teams to design, test, and deploy software solutions.
- Implemented performance optimizations and resolved bugs to ensure smooth system functionality.
- Assisted in system upgrades and technical troubleshooting to maintain system efficiency and security.

Research and Development

09/2021 – 06/2022

BITDANCE TECHNOLOGY AND ENTERTAINMENT CO., LTD – HO CHI MINH CITY

Responsibilities :

- Contributed to research and development projects in AI and machine learning applications.
- Assisted in data analysis, experiment design, and implementation of algorithms.
- Worked with cross-functional teams to support the development of new technologies and features.

PASTIMES AND ACTIVITIES

- Exploring new technologies and engineering solutions
- Programming and working on personal technical projects
- Self-learning through technical documentation and online resources
- Participating in team-based activities and technical discussions
